Haemodialysis Concentrated Solutions

Tailored to every patient need

Key Benefits

Dialysis fluid is critical in order to safeguard a successful treatment regime. Whether custom formulation or standard prescription, our solutions deliver electrolyte and acid—base balance, as well as removing metabolic waste products.

Our solutions are targeted to individual patients' needs. For that reason, we offer a unique "build your own solution" service. Innovative, efficient and ready to use, our solutions offer chronic dialysis patients, and their clinicians, complete peace of mind.
